### Aims & Objectives

KEEAD is autonomous socio-scientific research division of Kota Experts Education Services Private Limited in support of environment (protection) act, passed in 1986 by Govt. Of India after Bhopal Gas Tragedy (1984). EIA is the part of environment (protection) act 1986; which is essential to be conducted by the approval of any project. During the whole process of EIA the effects of proposed project are estimated/calculated on overall environment wherever this project has been proposed to be established.

Through following aims & objectives KEEAD is contributing to EPA 1986 of Govt. of India & assessing the impact of human interference on environment & on its components; & also trying to take out solutions too.

1. Conduction of Biodiversity conservation programs/research
2. Conduction of Wetland Conservation Programs/Research.
3. Reduction of Carbon Footprint.
4. Conduction of research/surveys/drives for better health of citizens.
5. Conduction of conferences, seminars, symposiums & essay competitions.
6. Conductions of research projects for sustainable development through development of techniques/products for greener tomorrow on self-funded mode & sponsored by different government & private sponsors.
7. To publish news letters, books & Journals regarding environment/socio-ecological/social/economic concerns affecting environment.

Kinetic Energy to your Career.
